The finished product makes this a unique turntable in its kind that will be a joy to listen. The turntable is a semi-automatic belt table. It does not have an adaptation of VAT. The arm and plate pass on a suspended subteal and isolate the acoustic vibrations from the surface of the records. Completely restored sell for over \$ 300. With a small change it can be a really good turntable. The PL-115D works both at a speed 33 1/3 and 45. This turntable has been rebuilt from scratch and is a super nice and well-done quality turntable. From the heart, thank you! There is a gofundme to help with medical bills. An average unit is sold to around \$ 150. It is an excellent design and prevents unwanted feedback from speakers. Pioneer PL-115D is semiautomatic, Á, 2 speeds, belt turntables. It has an elegant look with the base in walnut grain and the upper part in coal. The original simulated Mylar walnut veneer has been removed and veneer real red oak wood installed. Whatever you won't see are his struggles with memory and fatigue. \$ 250.00 Á, Buy it now \$ 59.99, buy it now \$ 100.00 Á, buy it now \$ 119.99, buy it now This seller has not set a shipping cost for Finland. It uses a mechanism for detecting automatic return speed that will replace the resting arm even with a deformed registration. Professional packaging and insured shipping with UPS earth. The dust cover was polished to power and looks new from a few meters away. The weight of the cartridge can be between 4 g and 10 g. It is standing and about to function like his old sé. This table works very easily and is a joy to operate. It is also included of the user manual. It was produced in Japan and hit the market around 1976. A Shure M-91ED cartridge is installed with a new diamond stylus. Pioneer has sold many, many PL-115D turntables, so they are not uncommon.
